

Consultant - Carbon

Hybrid or on-site (or a combination to suit) - Bristol, London or Manchester – to £38,750 (flexible)

About us:

Eunomia is a leading environmental consultancy working primarily in the fields of waste management, resource efficiency, low carbon energy, marine planning and climate change mitigation. We currently have around 150 staff located in Bristol (HQ), London, Manchester, Scotland, Brussels, Athens, New Zealand and New York. We are at the leading edge of many critical areas of environmental policy and we punch well above our weight in terms of influence on public and private sector clients alike.

Eunomia embraces diversity and equal opportunity, the more inclusive we are, the better our work will be.

The Role

Working within the Energy, Sustainability and Markets team, you will be involved in helping our clients calculate and reduce their carbon emissions.

Your day-to-day activity will include a variety of tasks, including excel based modelling, desktop research, and technical report writing. You may also be involved in project management, bid management and client relationship management.

You will be involved in or lead multiple projects at once. Your clients may span a diverse set of industries, ranging from multi-national companies to boutique brands and start-ups.

You will be flexible with a strong work ethic, and feel comfortable simultaneously leading and delivering a number of technical projects and bids under pressure. You will be a self-starter, highly organised, and share our commitment to a high quality of work. A personal interest in, and commitment to, environmental and sustainability issues is expected.

What will our ideal candidate have?

- At least three years' experience in carbon accounting and reporting;
- Experience in calculating and reporting scope 1, 2 and 3 emissions, with knowledge of key topic areas, including setting inventory boundaries, accounting for renewable energy, and accounting for supply chain emissions using multiple approaches

- Understanding of the strengths and weaknesses of various carbon accounting standards (e.g. GHG Protocol, ISO 14064);
- Experience of delivering credible near-term and long-term Net-Zero Targets and associated strategies;
- An understanding of the Science Based Targets initiative (SBTi)
- Excellent research & data analysis skills, including manipulation of large datasets;
- Strong verbal and written communication skills, including technical report writing; and
- Demonstrable experience in applying creative, practical, and common sense thinking to solve real-world problems.

The “icing on the cake” might be previous consultancy experience, or complex LCA project experience, or having worked with multi-national/global companies in relation to overseas operations.

What do we offer?

You will be part of a supportive and friendly values-led work environment, with continued professional development opportunities. A competitive salary (the provisional salary range for this role is up to £38,750 but there may be flexibility for exceptional candidates) with excellent benefits (including Private Healthcare [which includes dental provision], EAP, Death in Service scheme, Group Pension, Income Protection Scheme (after completion of probationary period). 24 days holiday per year (plus Bank Holidays) rising by 1 day each year to a maximum of 30 days per year and the option to “buy” up to five more days annual leave. All of us have a monthly wellbeing allowance and can take an additional 2 days “leave” a year for volunteering.

Eunomia embraces equal opportunity in the workplace and throughout the recruitment processes. We are committed to building a diverse and inclusive team of brilliant, exceptional individuals. We therefore welcome and enjoy receiving applications from all candidates, and do not discriminate based on age, disability, sex, gender confirmation, sexual orientation, marital status, pregnancy and maternity, religion or belief, ethnic or national origin and race. We typically have a high number of applications and reserve the right to close our vacancies before the closing date.

The Company reserves the right not to appoint anyone if no suitable candidates come forward. Eunomia Research & Consulting is committed to protecting data and respecting the privacy of persons it deals with. In so doing, we comply with the requirements of the General Data Protection Regulations (GDPR) 2018. We confirm

that in the event you apply for a role within Eunomia, your details will be securely held by the company in line with the company's Privacy Policy which is available on Eunomia's website. We encourage you to read this policy in order that you understand our legitimate reasons for processing your data, as well as your rights with regard to submitting your personal information to us with regard to recruitment.
